Students are **strongly advised** to check with the program they plan to apply to for specific prerequisites.

Some factors to consider in the admission process for B.S. in Clinical Laboratory Science or Medical Technology Programs

1. Prior to enrollment, the applicant must have completed a core curriculum of 60 semester hours at an accredited college or university.
2. A grade point average of at least 2.5 (on a 4.0 scale) on all previous college work is required for consideration. Coursework more than 10 years old must be updated in organic chemistry, microbiology, and algebra.
3. 2-3 letters of recommendation are required.
4. Some programs require students have BOTH of the following certifications from the American Heart Association:
   1. CPR - BLS for Healthcare Providers  
   2. Heartsaver First Aid

**Traditional B.S. in Medical Technology Programs in Georgia**

1. Augusta University ([https://www.augusta.edu/alliedhealth/uhp/clsl/](https://www.augusta.edu/alliedhealth/uhp/clsl/))

**“Fast track” Medical Technology Programs* in Georgia**

2. Emory University ([https://www.emoryhealthcare.org/careers/medical-technology.html](https://www.emoryhealthcare.org/careers/medical-technology.html))

*Fast track programs are designed for individuals that already hold B.S. degrees in Biology. They take 1-2 years to complete and include clinical rotations and preparation for certification exams.
