What factors are considered in the admission process for DPT Physical Therapy Programs?

1. Bachelor's degree: while there is not a required major, the most common undergraduate majors among PT students include exercise science, biology, kinesiology, and psychology
2. Volunteer (or paid) physical therapy experiences: most schools require some hours in which students work with a practicing PT
3. Graduate Record Examination (GRE)
4. References: usually from professors as well as from PTs from volunteer experiences
5. Physical Therapist Centralized Application Service (PTCAS) applicants should also review the PTCAS [checklist](#).
