What factors are considered in the admission process for BS in Radiologic Science/Medical Imaging Programs?

1. Overall GPA including all coursework that has been attempted except for health, PE, orientation, and learning support courses.
2. Science GPA
3. Letters of recommendation.

health science concentrations: sonography, CT, MRI, radiography

**NOTES:** There is a tremendous diversity in requirements for different programs in Radiologic Sciences. Sonography and Nuclear Medicine require physics (not physical science), which means the student must first take MATH1113 (Precalculus) because it is a GGC prerequisite for PHYS1111K. Radiation therapy at Augusta also requires PHYS1112K. **Students must contact the program they are interested in applying to for all specific admission requirements!**
