

BROCHURE TEMPLATE (4, 6, or 8 panels total)

All academic, administrative, and support units of Georgia Gwinnett College are required to use Georgia Gwinnett College's visual identity system for all official internal and external communications and promotions.

Three-panel brochure (six-panel total)

Programs of Study
GGC's biology program offers five concentrations.

General Biology
Do you have broad career interests? This diverse course of study may have you gathering field samples, researching physiological response of an organism or inserting new genes into a bacterium.

Biochemistry
This track will provide you with interdisciplinary training in the chemistry of biological molecules and the chemical processes of life.

Biomedical and Laboratory Sciences
Interested in health care careers? This track prepares you for diverse careers in medical and veterinary fields, as well as laboratory and allied health professions.

Ecology and Field Biology
Outdoor field courses and practical experiences highlight this program for those interested in conservation, wildlife, fisheries, aquatic and terrestrial ecology, parks and more.

Teacher Certification
Do you want to share your passion by teaching biology for grades 6-12? It's offered in collaboration with GGC's School of Education.

Contact Us Today
If you're interested in biology, contact biology@ggc.edu or call 678.407.5799.

Find your place. Find your mission. Find your purpose.

BIOLOGY

Georgia Gwinnett College

Outside

BIOLOGY AT GGC

How can you develop strategies for preventing the decline of honey bee populations? How does nicotine seem to protect someone from contracting Parkinson's Disease? Is there a way to anticipate variations in viruses and develop vaccines in advance? How can you produce data showing the effects of certain pollutants on life forms in a stream?

What is Biology?
Biology is the study of life – from the whole organism to the molecular level. It emphasizes understanding species and their genetics, development, evolution and interaction with the environment. Biologists seek to unravel the mysteries of life from the molecular level to the biosphere.

Biology Careers
A biology degree offers you an excellent background for a variety of careers and advanced training. Many biology graduates pursue careers in academia, education, business, industry and government.

Potential fields include:

- Biochemistry
- Biotechnology
- Dentistry
- Environmental science
- Epidemiology
- Laboratory medicine
- Medicine
- Natural resources
- Optometry
- Pharmaceuticals
- Pharmacy
- Research
- Wildlife

Opportunities also are available in law, journalism, medical illustration and public policy.

The Biology Experience at GGC
Your educational experience in biology at GGC is student-centered and led by dedicated faculty who will mentor you inside and outside the classroom.

Your additional learning opportunities include engaging in education abroad, service learning and Undergraduate Research Experiences (UREs), which are embedded throughout our curriculum, starting with your freshman year. You will be required to demonstrate mastery through either a research project or an authorized internship.

You will work closely with faculty members who will mentor you in learning laboratory techniques, research methods and how to report results. These real-world, hands-on skills will prepare you for positions in modern work environments or for further study in graduate school.

You will eventually design and conduct your own research project, and give a presentation on your research at campus events and programs. You may even find yourself presenting at professional conferences.

Inside

Four-panel brochure (eight-panel total)

Wash. Dry. Repeat.
Get your clothes clean with ease using Caldwell & Gregory Commercial Laundry Professionals machines conveniently located in your Residence Hall.

To wash/dry your clothes:

1. Download the Speed Queen app.
2. Create your Speed Queen account with your GGC email.
3. Add your PIN and location:
 - If paying with your Cave Cash, use GAGWC1, then select "Georgia Gwinnett College" as your laundry room location.
 - If paying with a credit/debit card, use GAGWC2, then select "Georgia Gwinnett" as your laundry room location. A minimum \$10 deposit is required.
4. Start the machine.

The Speed Queen app will display your entire Cave Cash balance. You can't add more funds to your Cave Cash balance through the Speed Queen app. You must add Cave Cash to your Cave Card.

Mail? Yes, Please
Whether you're sending a package, picking up mail, or needing something printed, GGC's Mail & Copy Services have you covered. Stop by the Mail Room in Building D, Room 1470—we're here to help with all your mailing, shipping, and printing needs.

Got questions? Call us at 678.407.5529 or email Clawcard@ggc.edu. We're happy to help.

Claim Your Campus Mailbox
About two weeks after moving in, keep an eye on your ribbon—Mail Services will email you when it's time to sign up for your campus mailbox. To claim yours, just stop by Mail Services in person and don't forget your Claw Card! Once you've got your mailbox number, make it official by updating your on-campus address in Grizzly Den within Banner.

Returning to campus? If you had a mailbox last semester, good news—you'll keep the same one for as long as you live on campus.
